GMC HOSPITAL TO BE COMPUTERISED

PANJIM, DEC 18 – Health and IT Minister, Dayanand Narvekar inaugurated computerization of Goa Medical College and Hospital at GMC, Bambolim, today.

Speaking on the occasion, Narvekar said that the efforts of the Government to provide IT facilities have started showing positive results and this is evident from the fact that Goa has been declared as the best state among the Indian states in the IT and health sector. In coming years the GMC hospital will also become one of the most modern and finest Government hospital in India, he added.

Narvekar said the facility of providing computerization to the GMC would go a long way to enable patients get better facility.

Speaking further, Narvekar said the Government has geared up its machinery to speed up IT activities. GMC Hospital marks the completion of the first phase of a comprehensive Goa Health Net Plan covering other government medical Institutes in Goa, two district hospitals, 36 rural and urban hospitals and 19 primary health centres across Goa.

Computerization in GMC will facilitate patient registration and revisits, admissions, discharges. It will also reduce the waiting time and significantly improve the quality of treatment.

Satish Kini, chief mentor and principal consultant of the 21st Century Health group also spoke on the occasion.

S.R. Shet Managing Director of Infotech Corporation of Goa was present on the occasion, Dr V N Jindal, Dean GMC welcomed the guest and Dr Rajan Kunkolienkar, Medical Superintendent of GMC proposed vote of thanks.
